Robert Genetski

Classical Economic Principles and the Wealth of Nations Robert Genetski

Dr. Genetski has been a longtime advocate of classical economic principles. Not unlike Adam Smith in *The Wealth of Nations*, Dr. Genetski has used his knowledge of these principles to create economic forecasts, from correctly predicting stagnation in 1977, an economic revival in the 1980s and 1990s, to historically low interest rates in 2001. In early 2008 he warned of a financial collapse, six months before it occurred. The bottom line in all of these predictions is that the negative predictions correlate with a shift away from the implementation of the classical economic principles and vice versa.

Ultimately, Dr. Robert Genetski's illustrious credentials make him the ideal fit to author *Classical Economic Principles and the Wealth of Nations* in an attempt to reiterate the economic formula that has catapulted the United States to the top for so many years.
