Models and Applications of Chaos Theory in Modern Sciences

Elhadj Zeraoulia

Models and Applications of Chaos Theory in Modern Sciences Elhadj Zeraoulia

This book presents a select group of papers that provide a comprehensive view of the models and applications of chaos theory in medicine, biology, ecology, economy, electronics, mechanical, and the human sciences. Covering both the experimental and theoretical aspects of the subject, it examines a range of current topics of interest. It considers the problems arising in the study of discrete and continuous time chaotic dynamical systems modeling the several phenomena in nature and society—highlighting powerful techniques being developed to meet these challenges that stem from the area of nonlinear dynamical systems theory.
