The History of Childhood (Master Work) Lloyd deMause
from the Foreword:

Children, being physically unable to resist aggression, were the victims of forces over which they had no control, and they were abused in many imaginable and some almost unimaginable ways by way of expressing conscious or more commonly unconscious motives of their elders... The present volume abounds in evidence of all kinds, from all periods and peoples. The story is monotonously painful, but it is high time that it should be told and that it should be taken into account...
