The Integrated Early Childhood Curriculum Suzanne Krogh

Designed for the early childhood education curriculum methods course, this book focuses on the philosophy of integration from preschool through the primary grades. The book looks at the child, the teacher, the parents, and the classroom environment and how they can work together to achieve a successfully integrated program. An entire chapter is devoted to each major curriculum area and each one is organized around the national standards developed by its national association. A discussion of how to integrate standards with other subjects (i.e.: language, math, science, etc.), is also included for each subject.
