Communication Sciences and Disorders: An Introduction Laura M. Justice

Communication Sciences and Disorders: An Introduction, introduces the topic in a clear and succinct manner that allows access to the most current theories, research, and practices through rich examples and anecdotes. It employs a clinical case-based, life-span approach with special attention given to:

- The application of knowledge, skills, and concepts through comprehensive case studies that include evaluation and treatment plans and multi-media samples.
- The ecological impact of communication disorders at home, school, work, and community, with an emphasis on thinking about functional assessment and outcomes.
- Multicultural issues with an emphasis on the interactions among culture, communication ability, and communication disability.
- Research-based practices in assessment and intervention.
- Pediatric impairments in feeding and swallowing.
- Contemporary "hot topics" associated with the ongoing evolution of the speech, language, and hearing disciplines.
