## **Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai** D.G. Toll, H. Zhu, X. Li

Information technology (IT) is now intrinsic to many aspects of our lives, and this is no less so for the field of geo-engineering, where it is widely used. This volume presents the proceedings of the First International Conference on Information Technology in Geo-Engineering in Shanghai, September 2010. The conference brought together engineers, scientists, researchers and educators to review new developments and IT advances in geo-engineering and provided a forum for the discussion of future trends. Information technology evolves constantly, and the innovative concepts, strategies and technologies which have sprung up are becoming ever more important to all aspects of geo-engineering; facilitating design processes, improving construction efficiency and lowering maintenance costs. These topics are among the many addressed here. Of interest to all those involved in the field of geo-engineering, it is hoped that this volume will prove to be the first of a series to cover regular international conferences on this increasingly important subject.

IOS Press is an international science, technical and medical publisher of high-quality books for academics, scientists, and professionals in all fields.

Some of the areas we publish in:

- Biomedicine
- Oncology
- Artificial intelligence
- Databases and information systems
- Maritime engineering
- Nanotechnology
- Geoengineering
- All aspects of physics
- E-governance
- E-commerce
- The knowledge economy
- Urban studies
- Arms control
- Understanding and responding to terrorism
- Medical informatics
- Computer Sciences

---

### **From reader reviews:**

#### **William Chapman:**

As people who live in the actual modest era should be change about what going on or details even knowledge to make these keep up with the era and that is always change and move ahead. Some of you maybe can update themselves by reading through books. It is a good choice in your case but the problems coming to an individual is you don't know what kind you should start with. This Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai is our recommendation to help you keep up with the world. Why, because this book serves what you want and want in this era.

#### **Jeffrey Paolucci:**

The publication untitled Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai is the reserve that recommended to you to see. You can see the quality of the guide content that will be shown to a person. The language that author use to explained their ideas are easily to understand. The writer was did a lot of study when write the book, hence the information that they share to your account is absolutely accurate. You also can get the e-book of Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai from the publisher to make you considerably more enjoy free time.

#### **Carmen Russell:**

Beside this kind of Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai in your phone, it may give you a way to get more close to the new knowledge or info. The information and the knowledge you can got here is fresh in the oven so don't end up being worry if you feel like an old people live in narrow commune. It is good thing to have Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai because this book offers for your requirements readable information. Do you sometimes have book but you seldom get what it's interesting features of. Oh come on, that would not happen if you have this in your hand. The Enjoyable option here cannot be questionable, such as treasuring beautiful island. So do you still want to miss this? Find this book as well as read it from at this point!

#### **Martina Lassiter:**

In this era which is the greater person or who has ability in doing something more are more valuable than other. Do you want to become certainly one of it? It is just simple way to have that. What you need to do is just spending your time not much but quite enough to possess a look at some books. Among the books in the top record in your reading list is Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai. This book that is qualified as The Hungry Inclines can get you closer in becoming precious person. By looking way up and review this guide you can get many advantages.
