Marketing Financial Services Hooman Estelami

"This book is syncretism at its best . The writing is clear. The flow has the massive feel of logic unfolding" (Arthur Kover, Consulting Director at HCD Research Inc., Management Fellow at Yale University, and former editor of the Journal of Advertising Research) "Estelami combines an excellent knowledge of marketing literature with a deep understanding of financial services. The combination is a very effective and contemporary book on marketing financial services." (Russell S. Winer, Deputy Dean and Professor of Marketing at the Stern School of Business, New York University) "Marketing Financial Services serves an important need, both for the training of students wishing to enter the field of financial services, as well as for those already in the profession." (Kent B. Monroe, Distinguished Professor of Marketing Emeritus, University of Illinois at Urbana-Champaign and Distinguished Visiting Scholar, University of Richmond) "This book provides the reader with a thorough, in-depth review of the subject matter." (Alison Munsch, Principal, Insights for Actions Research, LLC) Financial services marketers are faced with challenging issues related to pricing, advertising, and selling their products in the marketplace on a daily basis. These challenges result from the immense complexity of financial services, the massive number of regulations influencing the industry, and the rapidly evolving face of competition. This book provides a systematic and scientific approach to the practice of marketing financial services. The book approaches the topic from the perspective of the customer. Research findings related to consumer psychology and human decision making provide the foundation for a structured approach to understanding how individuals make their financial decisions. Drawing from this analysis, the book establishes successful marketing practices for advertising, distributing, and pricing financial products and services. In addition, the book provides a detailed outline of regulations affecting marketing practices in the U.S., and discusses tactical and strategic tools used by financial services companies to penetrate the market. The book has been developed for use by individual readers eager to gain in-depth training on the topic on their own, and for classroom use by instructors in business schools at the MBA, undergraduate, and executive levels.
