The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable Kalervo V. Laurikainen

When I meet a difficult problem, I begin to go around it, approaching it again and again from different directions. If I persistently continue these approaches, it can happen that no problem remains.

(RolfNevanlinna, in a private discussion.) In 1976, after a mainly administrative period of some 15 years, I spent a couple of months at CERN, working in the Pauli Collection. When I found the Pauli-Fierz correspondence, I had the intuitive feeling that there was the key: that "it was an objective description, and that it was the only possible objective description" for the mysteries of quantum mechanics. Here I have cited Bohr in his 'last interview' (see Chap. 7), which I became acquainted with only later, but I was immediately convinced that Pauli's view was more profound than anything else I had read about in quantum mechanics. However, nowadays the investigation of the foundations of quantum theory is dominated by 'realism', which means that the influence of the psyche on our conception of reality is ignored. This book is an attempt to show that this is not possible in quantum mechanics.

From reader reviews:

Nancy Rush:

With other case, little people like to read book The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable. You can choose the best book if you love reading a book. As long as we know about how is important a new book The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable. You can add understanding and of course you can around the world by a book. Absolutely right, since from book you can recognize everything! From your country till foreign or abroad you can be known. About simple point until wonderful thing you may know that. In this era, we can open a book or even searching by internet unit. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's study.

Sonya Ewing:

The book The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable can give more knowledge and also the precise product information about everything you want. So why must we leave the great thing like a book The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable? Wide variety you have a different opinion about publication. But one aim that book can give many information for us. It is absolutely appropriate. Right now, try to closer with the book. Knowledge or facts that you take for that, you can give for each other; you can share all of these. Book The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable has simple shape however, you know: it has great and massive function for you. You can appear the enormous world by start and read a reserve. So it is very wonderful.

Florence Davis:

Spent a free time and energy to be fun activity to perform! A lot of people spent their free time with their family, or their very own friends. Usually they carrying out activity like watching television, planning to beach, or picnic in the park. They actually doing same thing every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Might be reading a book is usually option to fill your no cost time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the publication untitled The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable can be very good book to read. May be it can be best activity to you.

Virginia Johnson:

Exactly why? Because this The Message of the Atoms: Essays on Wolfgang Pauli and the Unspeakable is an unordinary book that the inside of the e-book waiting for you to snap this but latter it will surprise you with the secret it inside. Reading this book next to it was fantastic author who also write the book in such amazing way makes the content on the inside easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you for not hesitating having this nowadays or you going to regret it. This book will give you a lot of positive aspects than the other book get such as help improving your skill and your critical thinking technique. So , still want to delay having that book? If I were you I will go to the reserve

store hurriedly.
