Mr Howard A Hyde

Howard Hyde tells how he overcame the influence and indoctrination of radical leftism in his hometown in the 1960s and 70s and became instead an evangelist for Capitalism, free markets, low taxes, the Constitution, and America. He deconstructs the radical student movement and then, by collecting his most popular published articles of the past several years into a single volume, presents a comprehensive and consistent conservative and patriotic citizen-economist's analysis of subjects as diverse as health care, employment, immigration, climate change and foreign policy.
