I Give You Me - LOVE: The Science and Spirituality of Our Greatest Human Characteristic James H. Burch

Fresh and exhilarating insights about a subject we thought had been talked about, sung about and written about to death. A feet-on-the-ground, fast-moving rolling back of the curtain, to reveal the incredible complexity and beauty of humanity's most telling characteristic.

This short book is one long "ah-hah!" On their own, virtually everybody comes up with the same exclamation as they finish the book: "That's what I believe ... I just never heard it said that way before."

Amazingly insightful words that bring out the deepest insights of every philosophy, every theology, every religion, every culture and time. And then enhanced by strikingly beautiful photographs that turn every concept into high-definition visual osmosis to the heart and the mind.

Here is a beautiful book that will leave you with a new appreciation and understanding of loving and being loved: how communicable it is, how illuminating to our lives, how transformative of the ordinary into the extraordinary. The author and the photographer take the reader on an easy mind-stretching journey into our deepest and best selves ... and end up with a changed reader. You just can't understand the beauty of this reality without being moved to a new appreciation of life – life and the opportunity we have at our fingertips to love and to be loved.

If there were a way to measure the joy-content of the before-reading reader and the after-reading reader, the individual leaps would look like Fourth of July fireworks.

The science behind the Binding Force of the Universe (sought by philosophers and scientists since before the time of Aristotle) that is consciousness (and only discovered by chemists in the 19th Century and then later by quantum physicists) is explained in clear and joyous ease. The similarity in all religions (and humanistic philosophy) in having at their base the sense that Divinity = Love ("Loving Consciousness") locks it all in. There is only One reality. And it is good.

Don't be scared that this is too much for you. It isn't. It isn't!

You already know all this. You just haven't put it into words yet. This book will do that for you, and you will come away a new person. A happier person. A more loving person. A truer You.
