## **The Applied Mycology of Fusarium: Symposium of the British Mycological Society Held at Queen Mary College London, September 1982 (British Mycological Society Symposia)**

This 1984 book resulted from a symposium held by the British Mycological Society to bring together the many diverse areas of study of the genus *Fusarium*. Among the contributors to this volume were scientists working on applied and fundamental aspects of the subject. The book highlights the importance of the genus pathology, animal husbandry, human disease and as biodeteriogens. Yet other *Fusarium* spp. are sources of useful biochemicals: for example, one species is utilised for the manufacture of microbial protein for human consumption. All these topics are covered in this volume, which will continue to be of interest to a wide range of biologists and students.
