Administrative Discretion in Action: A Narrative of Eminent Domain Amanda M. Olejarski

This book is about changing the way we *do* public administration. It is about the wielding of administrative discretion in the implementation of a constitutional power: eminent domain, taking private property for public use. *Administrative Discretion in Action: A Narrative of Eminent Domain*, emphasizes the normative, constitutional perspective of public administration to study administrators' decision-making process that balances economic, political, and community interests—often in that order. It is about facilitating dialogue between public officials and the public.

This book is a tool for interested scholars, practitioners, students, and community members about the dynamic of administration of public affairs in a political context. Grounded in public administration theory, this book utilizes an in-depth, comprehensive analysis of the US Supreme Court's landmark 2005 decision in *Kelo v. New London*—from the perspective of public officials and community members in the state of Connecticut (home of *Kelo* case)—to share a balanced narrative.
