## ***Treats Family Diversity as the Norm***

*Diversity in Families*, 10/e by Maxine Baca Zinn, D. Stanley Eitzen, and Barbara Wells is organized around the structural-diversity framework. This framework views family diversity as the norm and follows that all families in society are shaped through their interaction with social structures. Families are viewed not as the "building blocks of societies" but rather, as products of social forces within society. The authors demystify and demythologize the family by exposing myths, stereotypes, and dogmas, allowing students to emerge with an understanding of why families are diverse.

MySearchLab is a part of the Baca Zinn / Eitzen / Wells program. Research and writing tools, including access to academic journals, help students explore diversity in families in even greater depth. To provide students with flexibility, students can download the eText to a tablet using the free Pearson eText app.

This title is available in a variety of formats - digital and print. Pearson offers its titles on the devices students love through Pearson's MyLab products, CourseSmart, Amazon, and more.
